

Polycarbonate Enclosures – Impact Series

Impact Series - Wall Mount, Single-Door Enclosures

Construction

- Polycarbonate for 900 in-lb, high impact resistance.
- Polycarbonate is stable and holds its tensile strength better than other non-metallic materials over a temperature range from -40 °F to 265 °F.
- Standard hinges for easy door removal or replacement while permitting a full 225-degree door swing.
- Integrated mounting flanges eliminate the need to affix the mounting feet or flange to the enclosure. Mounting flanges are molded into the enclosure.
- Integrated latch provides a clean look and easy opening of the enclosure. This latch is available on all Impact enclosures.
- Gray in color with gloss finish.
- Available with clear or opaque door.
- Extra interior mounting bosses on rear wall (and lid of opaque enclosures, except 9x8x2) provide multiple mounting options for DIN rail, back panels, or other components. **Tightening torque - 10 to 15 lb-in.**
