

# StrideLinX Remote Access Solution

## Add-on Services – Add value to Remote Access

These licenses provide added services to your StrideLinX remote access. These are not needed for the basic function of the VPN remote access, but can be added to enhance the value of the platform to you and your customers.

Cloud Logging licenses also include:  
unlimited cloud storage for up to 7 years with active license,  
unlimited real time and user configurable dashboards,  
unlimited data reports, and unlimited data tags.

**WARNING:** Data collected through data logging is only stored for as long as you maintain your paid license. ALL data will be lost if your license lapses. Data for a specific device will be lost if a license is removed from that device. Data is also only stored for a maximum of 7 years. If data older than 7 years is important, please archive your data locally before the 7-year limit is reached.
